## AI Declaration
## (Artificial Intelligence)

- ✓ In accordance with section 5.3(j) of the JCQ General Regulations for Approved Centers, all work submitted for qualification assessments **must be the students' own** and teachers and assessors must only accept work for assessment which they consider to be that

- ✓ Students who misuse AI such that the work they submit for assessment is not their own will have committed **malpractice** which is a form of **plagiarism**. If it is shown that material has been falsified, plagiarised, or the student has otherwise attempted to obtain an unfair advantage for themself or others, they must understand that it can lead to papers being marked down or **being disqualified**

- ✓ Students must make sure that work submitted for assessment is demonstrably their own. If any sections of their work are reproduced directly from AI generated responses, those elements must be identified by the student and they must understand that this will not allow them to demonstrate that they have independently met the marking criteria and therefore will not be rewarded

I declare that this is all my own work.　　☐

Student Name: ...........................................................................................................................

Qualification: .............................................................................................................................

Date of examination: ................................................................................................................

(Please hand completed Declarations back to the Examinations Officer after assessment)
