Careers Exhibitions/ Jobs Fairs			
Volunteering			
Residential Experiences			

Career means "path through life" the whole journey from school/college into adult life retirement and beyond, and may involve many different stages such as; college, training, employment, full or part-time work, voluntary work and work at home. This is to be regarded as a learning and experiential process by which a young person is able to glean information to make informed and considered decisions towards future opportunities, in order to realise individual potential and personal ambition.

‘Careers Guidance’ refers to a coherent programme of activities that inform, inspire and motivate young people, preparing them for work and helping them to understand where a range of education and training choices could take them in the future.
